- **Date:** Tuesday, April 9, 2019
- **Time:** 10:40 a.m. BST
- **Location:** Stratton Suite, Grosvenor House, A JW Marriott Hotel, London, UK

There will be a live webcast of both of these presentations available in the [events, presentations and webcasts section of IMV's website](#). Following the presentations, the webcasts will be archived for 90 days and a copy of the presentations will remain available in the same section of the website.

About IMV

IMV Inc. is a clinical stage biopharmaceutical company dedicated to making immunotherapy more effective, more broadly applicable, and more widely available to people facing cancer and other serious diseases. IMV is pioneering a new class of immunotherapies based on the Company's proprietary drug delivery platform. This patented technology leverages a novel mechanism of action that enables the programming of immune cells *in vivo*, which are aimed at generating powerful new synthetic therapeutic capabilities. IMV's lead candidate, DPX-Survivac, is a T cell-activating immunotherapy that combines the utility of the platform with a target: survivin. IMV is currently assessing DPX-Survivac as a monotherapy in advanced ovarian cancer, as well as a combination therapy in multiple clinical studies with Merck. Connect at www.imv-inc.com.
